

# CYSD NJ205E cylindrical roller bearings

How do you 13.5000 in overall length: find 3.5000 in d the CYSD NJ205E cylindrical roller bearings specification? Manufacturers Online Free check

|                               |                              |
|-------------------------------|------------------------------|
| d                             | 3.5000 in                    |
| base width:                   | 3.1250 in                    |
| overall length:               | 13.5000 in                   |
| expansion type:               | Expansion Bearing (Floating) |
| overall height:               | 7.3750 in                    |
| B                             | 4.2188 in                    |
| mounting:                     | Two-Bolt Base                |
| seal type:                    | Felt Seal                    |
| bearing type:                 | Spherical Roller             |
| radial dynamic load capacity: | 72640 lb                     |
| bore type:                    | Round                        |
| lubrication type:             | Lubrication Fitting          |
| housing construction:         | Solid Pillow Block           |
| operating temperature range:  | Max 250°                     |
| base to bore centerline:      | 3.7500 in                    |
| bolt size:                    | 0.8750 in                    |
| housing material:             | Ductile Iron                 |
| series:                       | USRB 5000                    |
| locking device:               | Collar Mount                 |
| manufacturer catalog number:  | 738460                       |
| D                             | 9.3750 to 11.2500 in         |
