

# FYH UCPH207-22 bearing units

FYH UCPH207-22 bearing units, Units and Housings CAD models , Manufacturing Service 13102 lb radial static load capacity: . Get 3.0000 in d Your Free.

|                               |  |
|-------------------------------|--|
| d                             | 3.0000 in                                    |
| radial static load capacity:  | 13102 lb                                     |
| D                             | 6.0000 in                                    |
| seal type:                    | Contact with Flinger                         |
| B                             | 7.7500 in                                    |
| length through bore:          | 3.09 in                                      |
| bore type:                    | Round  |
| finish/coating:               | Uncoated                                     |
| duty type:                    | Medium Duty                                  |
| maximum rpm:                  | 2500 RPM                                     |
| mounting type:                | Four-Bolt Flange                             |
| lubrication type:             | Lubrication Fitting                          |
| locking device:               | Set Screw                                    |
| series:                       | 216  |
| expansion type:               | Non-Expansion Bearing (Fixed)                |
| standards met:                | UL, AFBMA, AGMA, ASMMA, BSA, CMA, MPTA, PTDA |
| radial dynamic load capacity: | 17407 lb                                     |
| manufacturer catalog number:  | 126781                                       |
