

# ISB 22228 K spherical roller bearings

What 75 mm d are the dimensions of a ISB 22228 K spherical roller bearings? Manufacturing Service . Get Your Free, Instant Quote

|                               |                           |
|-------------------------------|---------------------------|
| d                             | 75 mm                     |
| operating temperature range:  | Maximum of +120 °C        |
| D                             | 160 mm                    |
| cage material:                | Polyamide                 |
| B                             | 37 mm                     |
| outer ring width:             | 37 mm                     |
| contact angle:                | 40 °                      |
| maximum rpm:                  | 5100 RPM                  |
| row type & fill slot:         | Single-Row Non-Fill Slot  |
| finish/coating:               | Uncoated                  |
| internal clearance:           | C0                        |
| precision rating:             | ABEC 1 (ISO Class Normal) |
| closure type:                 | Open                      |
| fillet radius:                | 2.1 mm                    |
| radial dynamic load capacity: | 140000 N                  |
| series:                       | 7300                      |
| radial static load capacity:  | 107000 N                  |
| standards met:                | DIN 628-1                 |
