

# ISO 7409 BDF angular contact ball bearings

Our highly-skilled and factory-trained service experts have the resources to help you with all your ISO 7409 BDF angular contact ball bearings needs – including routine maintenance, major repairs, warranty service, and equipment inspections.

|                               |                              |
|-------------------------------|------------------------------|
| d                             | 1-3/4 in                     |
| seal type:                    | Triple Lip                   |
| bolt circle diameter:         | 5.13 in                      |
| overall depth:                | 2.81 in                      |
| B                             | 6.1300 in                    |
| radial dynamic load capacity: | 20800 lb                     |
| flange mounting type:         | Six-Bolt Piloted Flange      |
| radial static load capacity:  | 22000 lb                     |
| bearing type:                 | Spherical Roller             |
| maximum rpm:                  | 3725 RPM                     |
| housing construction:         | Solid Flange Mount           |
| finish/coating:               | Uncoated                     |
| bore type:                    | Round                        |
| end type:                     | Closed                       |
| housing material:             | Steel                        |
| lubrication type:             | Lubrication Fitting          |
| locking device:               | Adapter Mounted              |
| series:                       | HD                           |
| expansion type:               | Expansion Bearing (Floating) |
| manufacturer catalog number:  | 072365                       |
