

# ISO SL045028 cylindrical roller bearings

Manufacturers of all 4906 lb radial static load capacity: are represented in our partial list of clients. Contact Gary for a complete ISO SL045028 cylindrical roller bearings list of 40 mm d clients and projects.

|                               |  |
|-------------------------------|--|
| d                             | 40 mm  |
| radial static load capacity:  | 4906 lb                                      |
| D                             | 104.8 mm                                     |
| seal type:                    | Triple Lip                                   |
| B                             | 136.7 mm                                     |
| length through bore:          | 50.5 mm                                      |
| bore type:                    | Round  |
| finish/coating:               | Uncoated                                     |
| duty type:                    | Extra Heavy Duty                             |
| maximum rpm:                  | 3600 RPM                                     |
| mounting type:                | Four-Bolt Flange                             |
| lubrication type:             | Lubrication Fitting                          |
| housing material:             | Cast Iron                                    |
| series:                       | 209  |
| locking device:               | Set Screw                                    |
| standards met:                | UL, AFBMA, AGMA, ASMMA, BSA, CMA, MPTA, PTDA |
| expansion type:               | Non-Expansion Bearing (Fixed)                |
| manufacturer catalog number:  | 076316                                       |
| radial dynamic load capacity: | 7891 lb                                      |
