

# KOYO UCX09L3 deep groove ball bearings

Question KOYO UCX09L3 deep groove ball bearings 35 mm d ? Find what you need faster by 72 mm D entering your information .

|                              |                                                             |
|------------------------------|-------------------------------------------------------------|
| d                            | 35 mm                                                       |
| precision rating:            | RBEC 1 (ISO Class Normal)                                   |
| D                            | 72 mm                                                       |
| maximum rpm:                 | 12000 RPM                                                   |
| B                            | 17 mm                                                       |
| bearing material:            | Steel                                                       |
| flanges:                     | (2) Outer Ring                                              |
| cage material:               | Polyamide                                                   |
| bore type:                   | Straight                                                    |
| finish/coating:              | Uncoated                                                    |
| number of rows:              | 1                                                           |
| closure type:                | Open                                                        |
| internal clearance:          | C3                                                          |
| application:                 | Piston Type Machines, Rolling Mills, Spindles/Machine Tools |
| ring separation:             | Separable Ring                                              |
| outer ring width:            | 17 mm                                                       |
| operating temperature range: | Maximum of +300 °F                                          |
| fillet radius:               | 1 mm                                                        |
| dynamic load capacity:       | 56 kN                                                       |
| series:                      | NU2                                                         |
| static load capacity:        | 48 kN                                                       |
