## NKE 22356-K-MB-W33+OH2356-H spherical roller bearings

What 2.9375 in d are the types of NKE 22356-K-MB-W33+OH2356-H spherical roller bearings ? Manufacturing Service . Get Your Free, Instant price, design review.

|                               | 1                                                                     |
|-------------------------------|-----------------------------------------------------------------------|
| d                             | 2.9375 in                                                             |
| base width:                   | 2.94 in                                                               |
| overall length:               | 13.4400 in                                                            |
| expansion type:               | Expansion Bearing (Floating)                                          |
| overall height:               | 7.9200 in                                                             |
| finish/coating:               | Black Oxide                                                           |
| mounting:                     | Two-Bolt Base                                                         |
| В                             | 4-1/2 in                                                              |
| bearing type:                 | Tapered Roller                                                        |
| seal type:                    | Triple Lip                                                            |
| bore type:                    | Round                                                                 |
| radial dynamic load capacity: | 11120 lb                                                              |
| housing construction:         | Split Pillow Block                                                    |
| radial static load capacity:  | 61200 lb                                                              |
| base to bore centerline:      | 3.7500 in                                                             |
| maximum rpm:                  | 2060 RPM                                                              |
| duty type:                    | Standard Duty                                                         |
| lubrication type:             | Lubrication Fitting                                                   |
| housing material:             | Cast Iron                                                             |
| standards met:                | UL, AFBMA, AGMA, ASMMA, ASTM<br>A48 Class 30, BSA, CMA, MPTA,<br>PTDA |

| locking device:              | Concentric Collar |
