|------------------------------|-----------------------------------|
| d                            | 8 mm                              |
| ball material:               | Steel                             |
| misalignment angle:          | 14 °                              |
| race material:               | Bronze                            |
| shank thread length:         | 25 mm                             |
| radial static load capacity: | 12900 N                           |
| rod end type:                | Male Threaded                     |
| head diameter:               | 10.3 mm                           |
| shank thread size:           | M8                                |
| head width:                  | 9 mm                              |
| thread direction:            | Left Hand                         |
| ball width:                  | 12 mm                             |
| lubrication type:            | Maintenance Free/Self-Lubricating |
| length to ball center:       | 42 mm                             |
| housing material:            | Zinc-Plated Steel                 |
| standards met:               | ISO-12 240-4                      |
