|------------------------------|--------------------------------|
| d                            | 20 mm                          |
| static load capacity:        | 31000 N                        |
| D                            | 47 mm                          |
| precision rating:            | Not Rated                      |
| B                            | 18 mm                          |
| maximum rpm:                 | 19200 RPM                      |
| flanges:                     | (2) Outer Ring, (1) Inner Ring |
| cage material:               | Polyamide                      |
| bore type:                   | Straight                       |
| finish/coating:              | Uncoated                       |
| number of rows:              | 1                              |
| closure type:                | Open                           |
| internal clearance:          | C0                             |
| outer ring width:            | 18 mm                          |
| ring separation:             | Separable Outer Ring           |
| fillet radius:               | 1 mm                           |
| operating temperature range: | -30 to +120 °C                 |
| series:                      | NJ22                           |
| dynamic load capacity:       | 38500 N                        |
