|-------------------------------|-------------------------------|
| mounting:                     | Two-Bolt Base                 |
| B                             | 5-3/8 in                      |
| d                             | 3.9375 in                     |
| operating temperature range:  | -20 to +220 °F                |
| bore type:                    | Round                         |
| radial dynamic load capacity: | 29905 lb                      |
| base to bore centerline:      | 5.0000 in                     |
| radial static load capacity:  | 23553 lb                      |
| duty type:                    | Medium Duty                   |
| base width:                   | 6 in                          |
| housing material:             | Cast Iron                     |
| D                             | 12-7/16 to 14-1/16 in         |
| locking device:               | Double Setscrew               |
| maximum rpm:                  | 5850 RPM                      |
| seal type:                    | Contact/Lip                   |
| lubrication type:             | Lubrication Fitting           |
| expansion type:               | Non-Expansion Bearing (Fixed) |
| series:                       | MFPD                          |
| overall length:               | 17.0000 in                    |
| replacement bearing:          | 3-315D                        |
| overall height:               | 10.2500 in                    |
| manufacturer upc number:      | 662461298848                  |
