

# SKF 2210E-2RS1KTN9 self aligning ball bearings

Browse SKF 2210E-2RS1KTN9 self aligning ball bearings Categories in the Manufacturers Online 180 mm d Free. including .

|                              |                           |
|------------------------------|---------------------------|
| d                            | 180 mm                    |
| operating temperature range: | -30 of +200 °C            |
| D                            | 320 mm                    |
| cage material:               | Brass                     |
| B                            | 112 mm                    |
| bearing material:            | Steel                     |
| bore type:                   | Tapered 1:12              |
| cage type:                   | Roller Guided             |
| outer ring type:             | Not Split                 |
| precision rating:            | Not Rated                 |
| internal clearance:          | C3                        |
| application:                 | Vibratory Applications    |
| closure type:                | Open                      |
| finish/coating:              | Uncoated                  |
| lubrication hole type:       | Lubrication Groove & Hole |
| outer ring width:            | 112 mm                    |
| dynamic load capacity:       | 1710000 N                 |
| fillet radius:               | 3 mm                      |
| static load capacity:        | 2340000 N                 |
| series:                      | 232                       |
| maximum rpm:                 | 2000 RPM                  |
