

# SKF 6201 NR deep groove ball bearings

SKF 6201 NR deep groove ball bearings with easy-to-use Steel ball material: parts graphics, giving you 25 mm d the ability to check parts availability, pricing, examine remanufactured options.

|                              |                                   |
|------------------------------|-----------------------------------|
| d                            | 25 mm                             |
| ball material:               | Steel                             |
| misalignment angle:          | 15 °                              |
| race material:               | Bronze                            |
| shank thread length:         | 55 mm                             |
| radial static load capacity: | 72800 N                           |
| rod end type:                | Male Threaded                     |
| head diameter:               | 29.5 mm                           |
| shank thread size:           | M24x2                             |
| head width:                  | 22 mm                             |
| thread direction:            | Right Hand                        |
| ball width:                  | 31 mm                             |
| lubrication type:            | Maintenance Free/Self-Lubricating |
| length to ball center:       | 94 mm                             |
| housing material:            | Zinc-Plated Steel                 |
| standards met:               | ISO-12 240-4                      |
