

# SKF NNCF4864CV cylindrical roller bearings

We 148.8 Kg Weight work closely with our SKF NNCF4864CV cylindrical roller bearings manufacturing partners to bring the best value to 812.800 mm d – Bore Diameter customers.

|                                 |   |
|---------------------------------|---|
| Weight                          | 148.8 Kg                                |
| Bearing Type                    | Thrust Cylindrical Roller Bearings – TP |
| d – Bore Diameter               | 812.800 mm                              |
| D – Bearing O.D.                | 1016.000 mm                             |
| B                               | 127.000 mm                              |
| T1 – Ring Thickness             | 31.75 mm                                |
| d1 – Large Bore I.D.            | 813.44 mm                               |
| D1 – Small Diameter O.D.        | 1015.75 mm                              |
| E – Shoulder Diameter – Housing | 838.2 mm                                |
| H – Shoulder Diameter – Shaft   | 990.6 mm                                |
| r – Fillet Chamfer              | 6.4 mm                                  |
| Static Load Rating              | 20400 kN                                |
| Dynamic Load Rating             | 3900 kN                                 |
| Limiting Speed                  | 440 rpm                                 |
