## SKF VKBA 1433 wheel bearings

Browse SKF VKBA 1433 wheel bearings Categories in Tapped Base mounting: the Manufacturers Online Free. including .

| mounting:                    | Tapped Base                   |
|------------------------------|-------------------------------|
| operating temperature range: | 30 to 180 °F                  |
| d                            | 25 mm                         |
| D                            | 50.80 mm                      |
| bore type:                   | Round                         |
| maximum rpm:                 | 3500 rpm                      |
| base to bore centerline:     | 16 mm                         |
| bolt size:                   | 3/8 in                        |
| duty type:                   | Normal Duty                   |
| tap thread size:             | 3/8-16                        |
| housing material:            | Black Polyamide               |
| lubrication type:            | Lubrication Fitting           |
| locking device:              | Set Screw                     |
| series:                      | UCPA                          |
| seal type:                   | Single Lip Contact            |
| cap type:                    | Yellow Protective Cap         |
| expansion type:              | Non-Expansion Bearing (Fixed) |
| end cap type:                | No End Cap                    |
| overall length:              | 74.90 mm                      |
| bearing material:            | 400 Series Stainless Steel    |
| overall height:              | 71.90 mm                      |
| manufacturer catalog number: | 53205A/SS                     |
| finish/coating:              | Black Polyamide               |
| manufacturer upc number:     | 787405250932                  |

| В                              | 39.40 mm  |
|--------------------------------|-----------|
| Weight                         | 0.86 lbs  |
| maximum operating temperature: | Max 180 ° |
