

Timken 206KLLG deep groove ball bearings

100% 0.7500 in d Alloy Steel – heat treated – chrome plated ball material: Authentic. Timken 206KLLG deep groove ball bearings Highest 24 ° misalignment angle: Quality. Certified Supplier.

d	0.7500 in
ball material:	Alloy Steel – heat treated – chrome plated
misalignment angle:	24 °
radial static load capacity:	11385 lbs
shank thread length:	1.5620 in
lubrication:	Unlubricated
rod end type:	Female Threaded
head diameter:	1.7500 in
shank thread size:	3/4-16
head width:	0.5930 in
thread direction:	Left Hand
ball width:	0.8750 in
grade:	Economy/General Purpose
length to ball center:	2.8750 in
lubrication type:	No Fitting
standards met:	SAEJ1120
housing material:	Carbon Steel – Corrosion Resistant Plating
series:	CF
