

# Toyana NF220 E cylindrical roller bearings

Various types and 1.2500 in d sizes to accommodate your Toyana NF220 E cylindrical roller bearings requirements.

|                               |                               |
|-------------------------------|-------------------------------|
| d                             | 1.2500 in                     |
| radial static load capacity:  | 3493 lb                       |
| D                             | 5.1250 in                     |
| seal type:                    | Felt Seal                     |
| B                             | 6.1250 in                     |
| length through bore:          | 1-13/16 in                    |
| bore type:                    | Round                         |
| operating temperature range:  | -20 to +220 °F                |
| duty type:                    | Standard Duty                 |
| finish/coating:               | Uncoated                      |
| mounting type:                | Two-Bolt Flange               |
| maximum rpm:                  | 1850 RPM                      |
| housing material:             | Cast Iron                     |
| lubrication type:             | Lubrication Fitting           |
| locking device:               | Skwezloc Collar               |
| series:                       | SFT-T                         |
| expansion type:               | Non-Expansion Bearing (Fixed) |
| replacement bearing:          | 2-14T                         |
| radial dynamic load capacity: | 5782 lb                       |
